ConnectBand Documentation
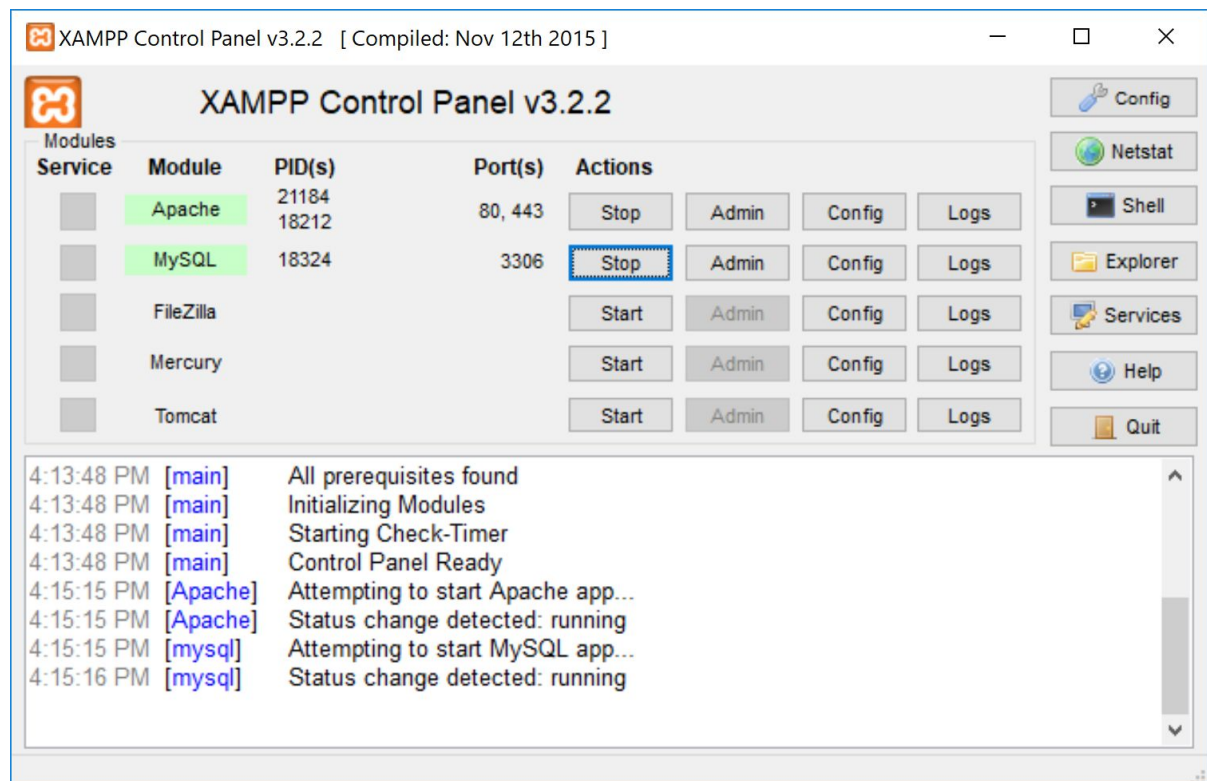

Table of Contents

Servers

Installation

1. Install the XAMPP PHP development environment by going to
    https://www.apachefriends.org/index.html
2. Once XAMPP is installed, start the Apache and MySQL services by clicking "Start"

    This is what should be shown in the control panel.
3. While the servers are running, phpmyadmin should be accessible at
    http://localhost/phpmyadmin/

Configuration

1. Create a database named "connectband" in the database tab of phpmyadmin.

Databases

2. Download the SQL script from
   https://github.com/Spagecko/ConnectBand/blob/master/connectband.sql and import
   "connectband.sql".

3. The database should now be populated as shown on the left hand side.
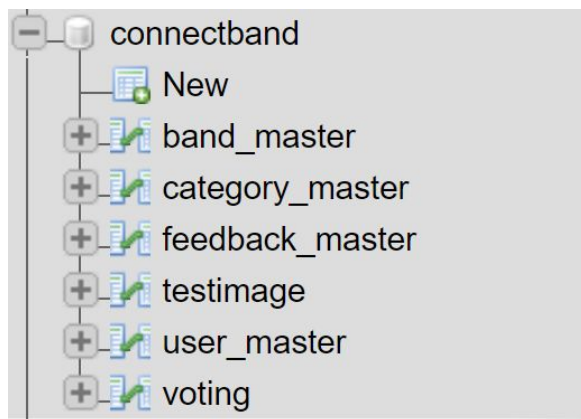

Admin

Deleting Feedback

1. Login as admin
2. Select feedback to delete from database
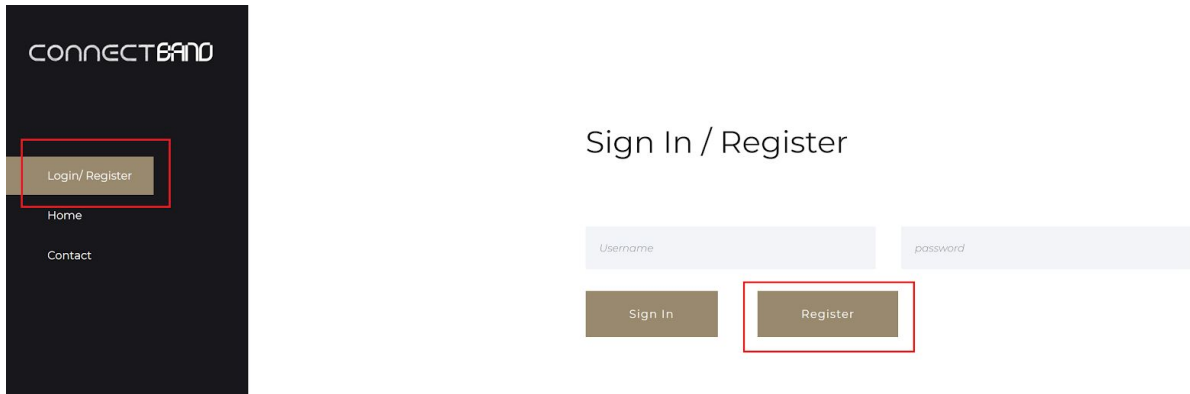

Remove Users

1. Login as admin
2. Select user to delete from database
